

Biomethane roadmap for France

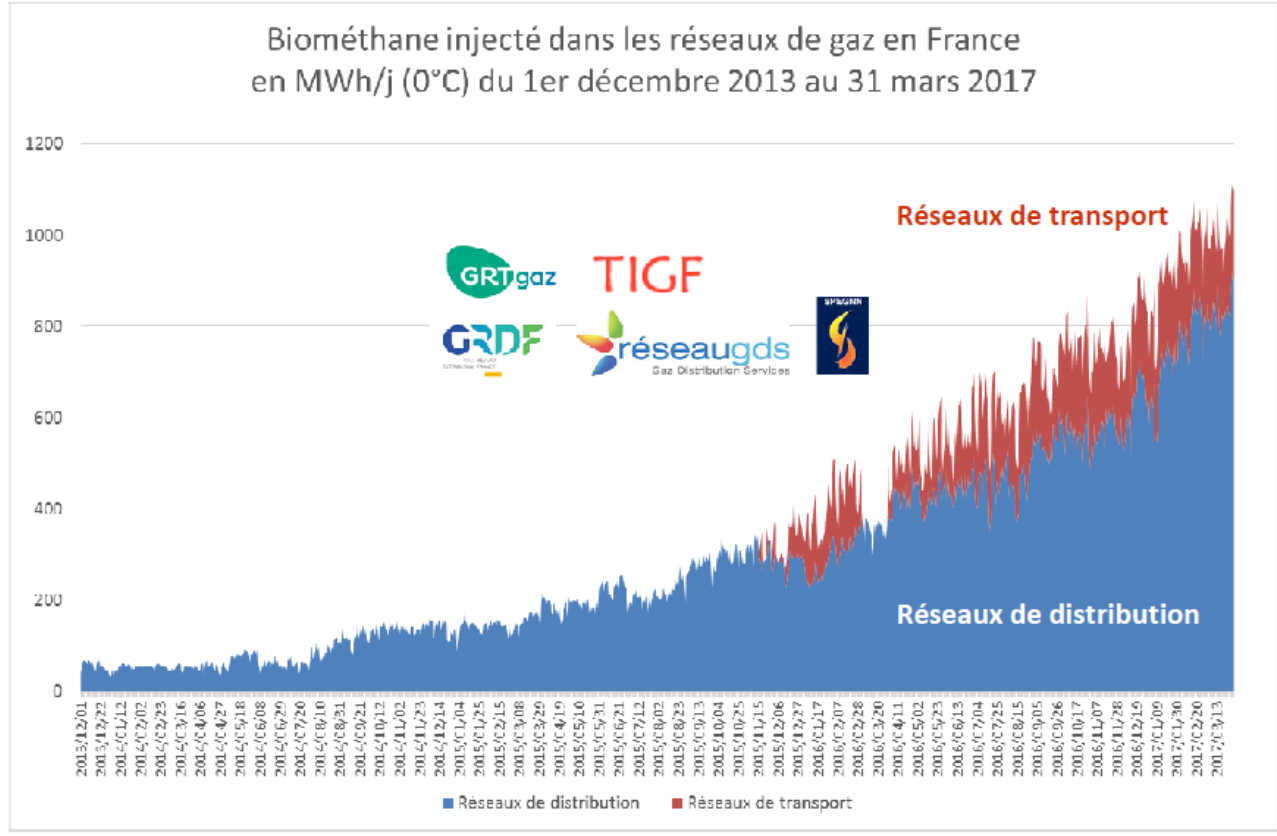

Marie Verney, Club Biogaz ATEE
Biosurf meeting - Budapest July 2017

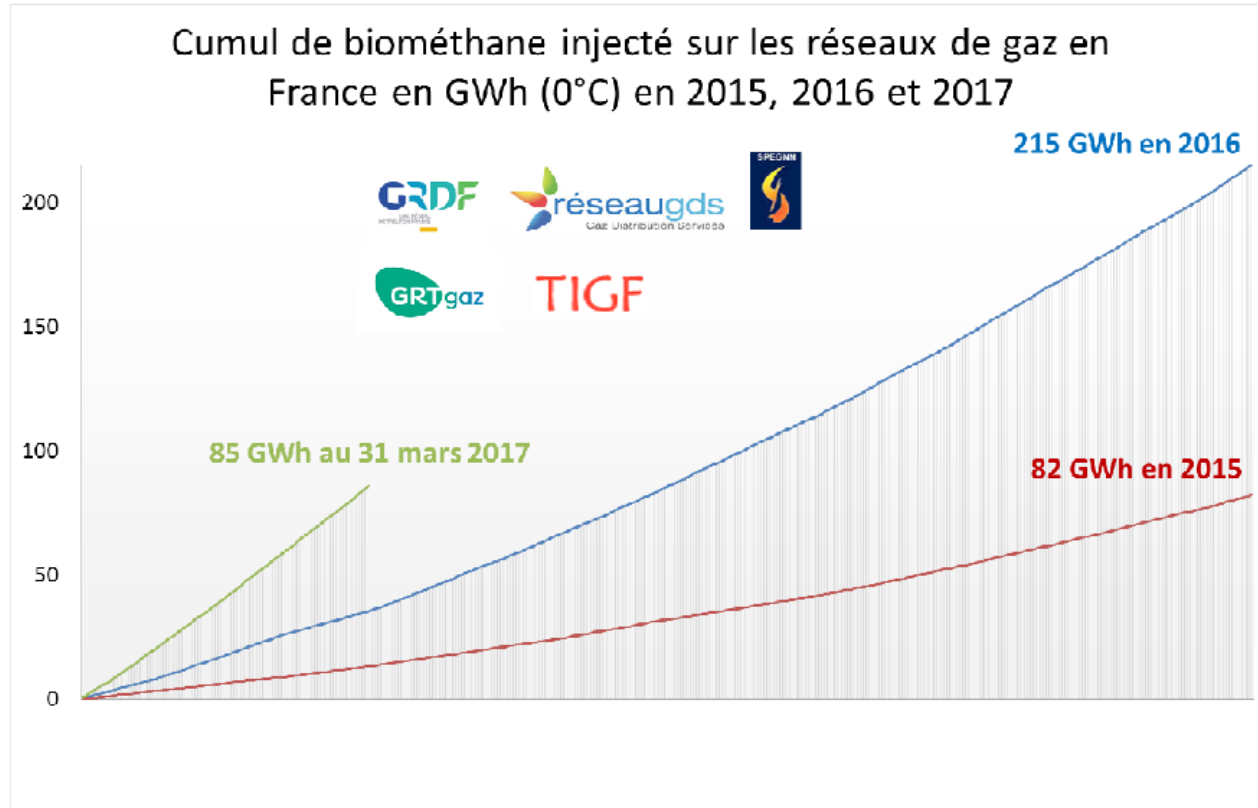

32 injection units in April 2017

Injected biomethane from December 1st 2013 to March 31st 2017

The aggregate of injected biomethane in 2015, 2016, 2017

Key figures

PRODUCTION

215 GWh in 2016

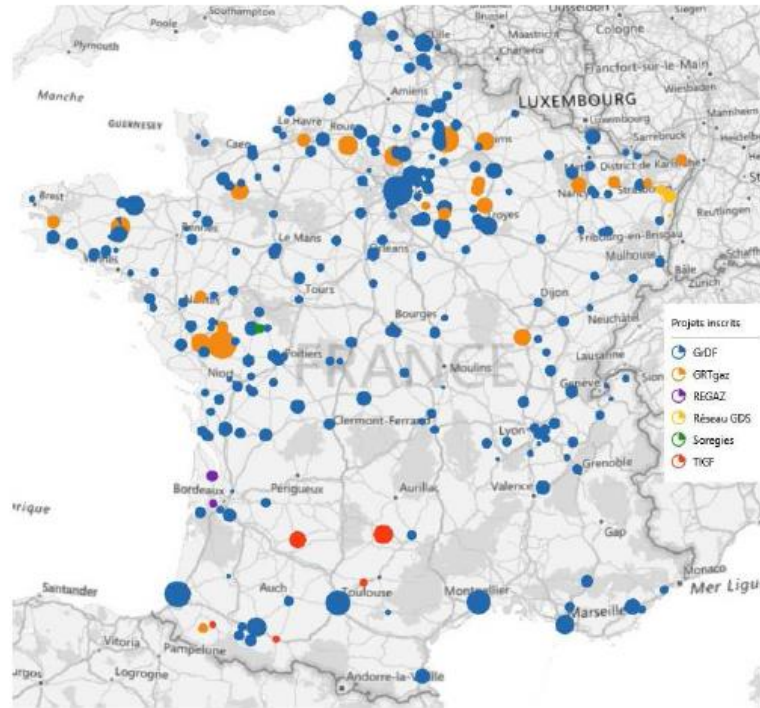

...compared to 83 GWh in 2015

NUMBER OF UNITS

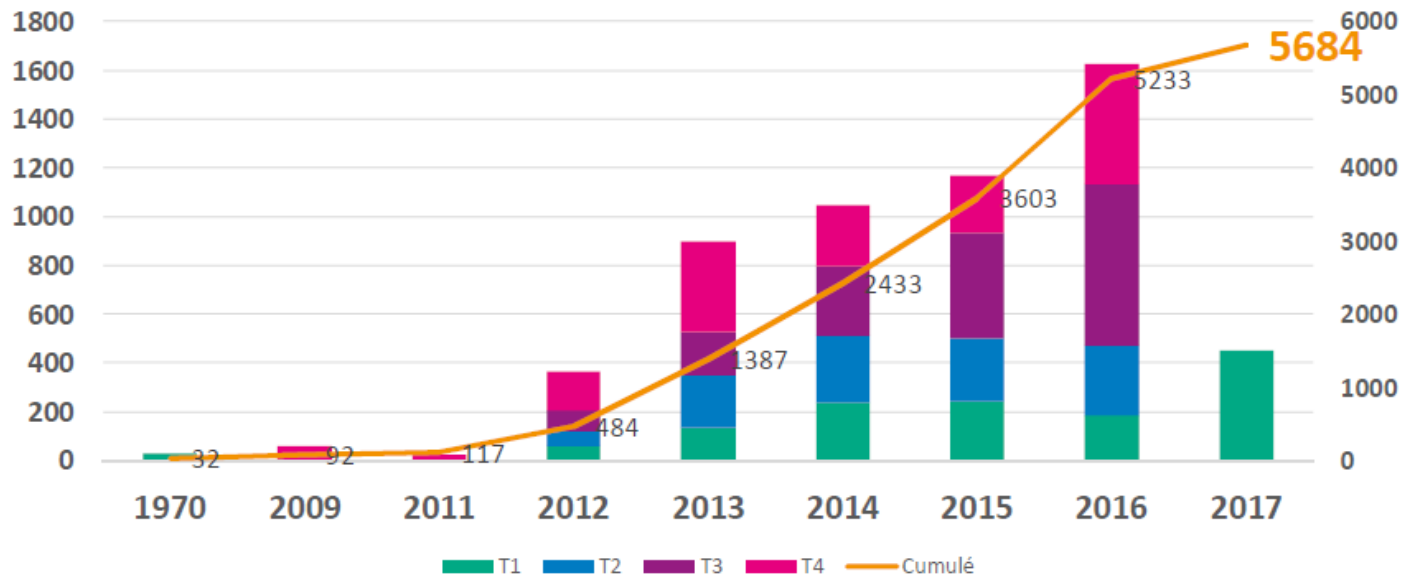

50 units should be operational end of 2017

...compared to 26 units end of 2016, and 32 units in April 2017

Geographic distribution of the 252 projects queuing for grid connection (241 end of 2016) – figures of April 2017

Maximal capacity of the units registered in the queue for grid injection, by trimester and aggregated (GWh / year) – figures of April 2017
