

## EU biogas and biomethane inventory of regulatory framework

Number of legislative act with a link		<a href="#">DL 28/2011</a>	
Name of legislative act		Implementation of Directive 2009/28 / EC on the promotion of energy from renewable sources amending we subsequently repealing Directives 2001/77 / EC and 2003/30 / EC	
Date of Publication		29/03/2011	
Date of implementation			
Purpose		This ministerial decree issue provisions concerning incentives for the production of electricity from renewable sources	
Relevance to the biomethane sector		description of criteria for incentives for electricity produced by plants fueled by renewable sources entered service after 31/12/2012	
Relation to EU legislation		Directive 2009/28 / EC of the European Parliament and Council Directive 2009/30 / EC of the European Parliament and the Council Communication	
Scope		This Decree, implementing Directive 2009/28 / EC and in accordance with criteria established by law June 4, 2010 n. 96, defines the tools, mechanisms, incentives and institutional, financial and legal, necessary to achieve the objectives for 2020 in the area of overall share of energy from renewable sources in gross final consumption of energy and energy share from renewable sources in transport. This decree also lays down rules relating to statistical transfers between Member States, joint projects between Member States and with third countries, guarantees of origin, administrative procedures, information and training, and access to the electricity grid energy from renewable sources and includes sustainability criteria for biofuels and bioliquids.	
Specification of a legislative act	Targets	The overall share of energy from renewable sources in gross final consumption of energy to be achieved in 2020 is 17%. Within the objective set out in paragraph 1, the share of energy from renewable sources in all forms of transport will be in 2020 at least 10 per cent of final energy consumption in the transport sector in the same year.	
	Support Systems for Biogas	Subsidies	no
		Feed in Tarrifs	no
		Premiums	no
		Tax exemption	no
	Support Systems for Biomethane	Subsidies	no
		Feed in Tarrifs	no
		Premiums	no
		Tax exemption	no
	Sustainability	no	
	Non-discriminatory access to the grid	no	
	Mass-balance	no	
	Transport	no	
Emissions	no		
Biowaste	no		
Digestate	no
