

Workshop: biomethane in the natural gas network

5th April 2017 10:00 - 17:00

Brussels Press Club Europe
Rue Froissart 95 - 1040 Brussels

Agenda

Session 1. 10:00 – 11:15

- 1. Greetings and overview of biomethane in the European gas grid**
Malene Hein Nybroe (Chair GIE Sustainable Future WG, Energinet.dk)
- 2. Greetings and overview of biomethane production routes**
Jan Stambasky (President, EBA)
- 3. The importance of Europe-wide distribution of biomethane for further expansion in the use of LNG/CNG in the transportation sector**
Andrea Gerini (Secretary General, NGVA)

Coffee break 11:15 – 11:30

Session 2. 11:30 – 12:30

- 4. Renewable gases in the Commission proposal for the future Renewable Energy policy**
Bernd K pker (Policy Officer, EC DG ENER)
- 5. ERGaR: Tool for cross border transfer and mass balancing biomethane within the European natural gas network**
Jeppe Bjerg (President, ERGaR)

Lunch break 12:30 – 13:30

Session 3. 13:30 – 15:00

- 6. ERGaR: cross-border transfer of environmental characteristics of biomethane**
Attila Kovacs (Secretary General, ERGaR)
- 7. The ERGaR organisation**
Martina Conton (Assistant Secretary General, ERGaR)

8. Experience from cross border biomethane trade

Mikkel Kynde (Portfolio Manager, NGF NE)

Coffee break 15:00 – 15:20

Session 4. 15:20 – 16:30

9. European biomethane standards for grid injection and vehicle fuel use

Arthur Wellinger (Senior Adviser, EBA)

10. CertifHy – Developing a European guarantee of origin scheme for green hydrogen

Wouter Vanhoudt (Director for Europe, Hincio)

11. Closing remarks

Jan Stambasky

This workshop is supported by the Horizon 2020 BIOSURF (BIOMethane as Sustainable Renewable Fuel) project. Website: www.biosurf.eu
